• Last year of term on Committee

- All users should have completed the SLUO Information Sheet.
 - SLAC needs to know about you.
 - SLUO needs to be able to communicate with you.
 - You (should) need this to obtain a computer account.
- If you have not done this, please see Ree Dufresne, the SLUO Coordinator, at the SLUO Desk in the Central Lab Annex.
- Please update your information with any significant changes.
- New users can also register via a form on the SLUO web page. Navigate from SLAC home page to:

<http://www.slac.stanford.edu/grp/rd/sluc/SLUO.html>

- Have new members of your group do this before arriving on site, and save time.

- SLUO has representatives on SLAC committees to assure that user concerns are considered.
 - Office space inventory and redistribution
 - Computing
 - Others as needed
- SLUO brings user concerns to the attention of the SLAC Directorate.
- Sometimes a solution is found promptly, sometimes not.
 - It is now possible for graduate students in residence at SLAC to take a single course at Stanford, *i.e.*, no minimum number of credits.
 - We continue to be concerned about the high cost of housing, especially for students. The SLAC Directorate has discussed this with Stanford, and the University **may consider** building a student dormitory on the SLAC site.

SLUO Lecture Series:

- 1996-97 Supersymmetry - Michael Peskin and a cast of 6
 - 1997 CP Violation and B Physics - Helen Quinn, with
 Yuval Grossman, Mihir Worah
 - 1998 Accelerator Physics - Bob Siemann plus 8
-
- Lectures are on videotape (SLAC Library).
 - Transparency copies are available at the SLUO Desk.
 - They may be available on the web in the future (C.Young).
-
- Ree has arranged to share these with Fermilab, and they will share similar lectures given at FNAL.
-
- Jaroslav Va'Vra has agreed to organize a lecture series on detectors in particle physics, to start in September or October.

Above, when I say SLUO did _____,
this means Ree Dufresne and the SLUO Executive Committee.

But, SLUO is more than the SLUO Executive Committee.

SLUO is all the users, and the Executive Committee represents the entire SLAC user community.

We try to act in the best interest of the users and SLAC.

Please tell us what you need, and what you want, in order to make your time at SLAC more pleasant, and more productive.

We will do our best to help.
